October 12th | 6 PM | Zoom

Scammers and fraudsters target Pennsylvanians every day in an effort to gain access to our money or personal information. They target our emotions in hopes that we will let our guard down and believe the scams they are perpetrating. From robocalls to social media messages, texts to emails, Pennsylvanians must be on the lookout for these “too good to be true” hoaxes. This presentation will break down the top 10 scams currently being used in PA.
