

BUILD A BOT!

Make your own robot for our Build a Bot challenge!

Rules:

- This challenge is for Ages 6-12
- You can only use the approved materials to create your creature: wood blocks, pipe cleaners, pompoms, popsicle sticks, feathers, googly eyes, markers, glue, tape, foam, felt, construction paper, bottle caps, aluminum foil, bolts, springs, gears, washers, paper clips, paper towel rolls, paper/plastic cups and buttons.
- A photo of your finished work must be a JPG or PNG file.
- Entries will be available for public view on the library's website.
- Limit of one entry per person.
- Three winners will be selected and will receive a Snap Circuits Kit!

Don't want to make at home? Attend a Build a Bot session at the Lincoln Community Center Library on October 4th, 4:30pm
